

1) Afgans to MN ?

I spoke with LSS and they stated that 310 Afghanistan Refugee's will be relocated at this time in Minnesota. 5 families will be relocated in St. Cloud and 6 Families will be relocated in Rochester. The remaining are in the Metro area. Note: This relocation of families will not reference secondary migration because it is unknown.. Just as the Somali population moved to St Cloud of 215 people per year indefinitely, we can expect another influx of family reunification of Afgans. This is the initial placement in the pipeline. I will keep all updated.
Ron Branstner

2) More Refugees etc for Central MN ??

GET READY!!!! You know what that means.....Brainerd in our area
You know what LSS, Lutheran Social Services is famous for, REFUGEES!!!
Minnesota is one of nine federally funded hubs in the country.
The state's hubs will be located in ***Brainerd,* Duluth, Minneapolis, St.Paul Willmar** to be site for LSS resource hub **WILLMAR** – Willmar will be the site of one of several Lutheran Social Service of Minnesota Community Resource Hubs to help families with young children navigate Minnesota's early childhood services. Minnesota is one of nine federally funded hubs in the country. The state's hubs will be located in Brainerd, Duluth, Minneapolis, ST Paul and Willmar. The goal of the hubs is to shift the burden of finding help from those seeking services to the organizations that provide the services. Minnesota received a three-year, \$26.7 million grant from the U.S. Department of Health and Human Services to help remove barriers and more effectively connect families to lifechanging early childhood programs. Goals include improving health and wellbeing outcomes for children, and prioritizing support for families of color and Native Americans. The project will also test "Help Me Connect," a new and centralized system that directly connects families and those working with them to resources. Through Lutheran Social Service, the hub will connect with programs that provide youth and family support, help with housing stability and support refugees. Services will be culturally sensitive. The hubs through Lutheran Social Service will be physically located in Brainerd, Duluth, Minneapolis, St. Paul and Willmar, but services will be virtual until offices open to in-person service. Hubs will focus on kinship caregivers, ***refugees***, families at risk of homelessness and others who need support.

"These organizations are already doing great work connecting families to resources," said Lisa Bayley, acting assistant commissioner for Children and Family Services at the Minnesota Department of Human Services. "These funds will help expand their services so they can reach even more families in their region."

3) Refugees and illegals change MN Cities

This is very interesting. This link

Most Diverse Cities In Minnesota For 2021 (homesnacks.com)

<https://www.homesnacks.com/most-diverse-cities-in-minnesota/>

indicates the top 100 cities and the growth of people of color. Its alarming

because many towns are not mentioned. Towns like Long prairie, Rockville, Morris, and countless other smaller communities are off most peoples radar. So out of 900 Minnesota cities, small towns under 5,000 appear off the radar for most people. Minnesota is being replaced by people of color. Remember what Governor Mark Dayton stated, If you don't like what is happening in Minnesota, you can leave.

Remember this fact. Minnesota was targeted many years ago by large Foundations to diversify Minnesota. Foundations like Blandin and McKnight lead the multiculturalism experiment. Millions of dollars invested. According to the Blandin Foundation over 7,00 people from many communities to create these leadership programs to advance their agenda. Minnesota was targeted as an experiment of erasing and replacing the current population with cheap labor. How does it feel to be the first?

The benefactors are agriculture, big business, Hospitals. Now, How does it feel to support your local farmer who hires illegals?

4) Refugee Resettlement in most MN Counties

Are you aware of this? Please read Ron Branstner's op-ed below about how the "refugee" resettlement issue is being played out in counties all over MN. Also know that several of us who had concerns attended the December 17, 2019 OTCountry Commissioners' meeting that addressed this topic.

At this time John Dinsmore, outgoing OTCountry Administrator, appealed to the commissioners to continue to allow the volags (ie) Catholic Bishops, LIRS (LSS), et al, to decide what future "refugee" resettlement will look like in OTC. The county commissioners then rapidly took a vote, rubber stamping Dinsmore's endorsement of this plan, before any audience members were given a pre-mentioned opportunity to speak. The meeting was then adjourned. Although a few of us were then allowed several minutes to informally address the commissioners with our concerns...the die had been cast.

Read this before your city councils and county commissioner meetings. In every city, county and state. Taxation without representation??? Why should a few county commissioners decide for all the people that are paying their salaries? RON BRANSTNER- LETTER TO THE EDITOR

Did the Kandiyohi County Commissioners overstep their authority by ignoring the Fifth and the Tenth Amendment of the Constitution in regards to Refugee Resettlement?

The Tenth Amendment of the Constitution, states "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people." - 1791.

Without public participation, three rogue Commissioners took it upon themselves to grant authorization to nine Non-elected, Non-governmental Organizations via the state Department to manage the United Nations Refugee program; ignoring states rights and due process. UNHCR finds its way to funding this expensive relocation program through uninformed communities, using tax dollars and remittance to stabilize the world.

Nine Federal contracting organizations, also known as VOLAG's, have no electability or accountability to the tax payers. The Federal tax code states, that taxes if imposed must have representation by the people. Yet, three County Commissioners along with the Governor surrendered our representation to nine non-elected organizations.

The Fifth Amendment of the Constitution is Due process, which entitles fairness to be heard. "A person is entitled to notice and have an

opportunity to be heard at a hearing when they have life, liberty or property at stake". The Commissioners not only ignored the taxpayer and stakeholders input they surrendered their liberties to the state Department as they relinquished authority to a third party with no accountability to the tax payer.

Residents were caught off guard as their 5th and 10th Amendments were violated. So who represents the tax payer in your County or state regarding Refugee Resettlement? Not one public official in Minnesota, because the County Commissioners and the governor relinquished all local authority to nine Federally Non-elected government contractors. To receive answers one would have to reach out to the President of the United States who by EO 13888 gave authorization back to the local communities with US code 1522. That gave consent to withdraw from any Federal program regarding Refugee Resettlement. With that said a 3-2 vote was like the shot heard around the world as Minnesota tax payers once again lost their liberties. By true definition this is Taxation without representation.

Put this issue to the test, ask Mayor Calvin and the city council if they have influence regarding Refugee Resettlement in your city. The answer should be NO!!!, its a Federal program. Then ask yourself who really runs the City and the County and who benefits by cheap labor when there is no representation? Who pays the taxes for the these programs? Answer: We the tax payers.

The benefits of resettling refugees goes to the Foundations that support these programs though grants that are overwhelming Federally funded. That's right, your tax dollars are going to Foundations that are not elected by the people. Again, a violation of the Fifth and the Tenth Amendments. Taxation without Representation.

5) MN Churches participate in Refugees resettlement

Ron Branstner explains how Christian churches have aligned with business to bring "refugees" to America...as they line their pockets with federal dollars. While they self-righteously virtue signal their humanitarian values as they "welcome the stranger" into US towns and cities, they do so without the say of We The People. This alliance has served to enslave cheap laborers and has forced taxation without representation onto the public...who will be forced to financially support these imports in all aspects of their lives..

"Taxation without representation is the act of being taxed by an authority without the benefit of having elected representatives."

From the Boston tea party which started the Revolutionary War to the United Nations Refugee Resettlement program, taxes on American citizens are, and were, the main source of revenue to fund these programs.

Today nobody is dressing up like Indians and throwing tea over the sides of ships. Instead, traitors disguise themselves as humanitarians and assist refugees onto the ship and make them scrub the deck, and clean the toilets in return for the promise of the great American dream. Who could argue with this humanitarian gesture? The businesses get cheap labor and the collective gets pennants for "welcoming the stranger", (Matthew 25) the new slogan for the modern day slave trade.

Church and business make strange bedfellows in a lucrative business agreement of duality, serving god and serving business. It is a far cry from Matthew 6:24, "No one can serve two masters" (God and money) yet, these two cohorts have found a way to facilitate cheap labor by way of Christian values.

The Christian slave ships are loaded like a trojan horse of generosity, the church of business, is in business, putting their faith "IN GOD WE TRUST" while these so-called Christian proselytizers say "pass the plate" on Sunday and will take your money on Monday.

Freedoms granted today are procured from yesterday's bloodshed. Men perished for a Declaration of "We the people" - protecting our borders, while upholding the rule of law. The Constitution was inspired by God and tested by man and opposed by tyrants. These tyrants will condemn the past and rewrite history. A rabid beast of contempt will swallow a whole nation while wrapping itself in the very rights of that which we call freedoms. While proclaiming religious persecution to those they wish to enslave using taxpayer dollars.

"Those who do not learn from history are doomed to repeat it".

Ron Branstner
