

Important video on United Nations CSE (Comp Sex Ed)

September 9, 2022

A power point that needs to be watched and shared.

PLEASE FOLLOW LINK AND READ THE NARRATIVE BELOW :

https://www.youtube.com/watch?v=m_NdoWCS6pQ

International Planned parenthood and the WHO is behind this program on CSE.

Most MN are unaware of what is being taught in the school public school system

The days of Math and reading have taken a back seat to the collective and become

more focused on social justice and social engineering. Minnesota leads the

global challenge as elected and unelected NGO's, along with intergovernmental

agencies, advance their immoral agenda on Comprehensive sex education..

Books like "It's perfectly Normal" are being introduced to adolescent children

in the MN School system. . The purpose of the book is to inform preadolescent

children of puberty by exploring different definitions of sex".

In MN, this is being introduced by way of the SEED or AVID program into many

Minnesota school teachings. All nine Minnesota unelected Service Cooperatives are part of the Joint Powers agreement which outlines the membership and operation of the organization known as The Minnesota Service Cooperatives.

Sourcewell is, a service Co-op based in Staples, MN. has aligned itself with region 5, also in Staples, which have become instrumental in allowing adolescent sex-Ed into the school system. The regional comprehensive plan that defines their agenda comes directly out of the UN sustainable development goals # 4, and # 5 as to their motives. Diversity , equity and inclusion. I want to personally thank those who have been actively involved in the fight to stop this insane agenda on social engineering on the children. Thank for the Child protection league and those who support you..

Ron Branstner
