

I am proud to announce that my name will be on the ballot again this year for school board of 2024/ 2025 election. My family faced many new challenges when I first ran for school board, including teachers union using tax payer money for their school email to medal with an election along side a smear campaign to quiet the voices of concerned parents. A large number of the community had completely defamed my name and spread many lies and misinformation. I received a no contact order from the school for following school policy and asking questions and trying to be involved in my children's education.

I will continue to fight for my children including yours. The children are our future and we lead by example. It's time we put people in these positions that will do the hard work stand up for what's right and listen to the parents. I know from personal experience what it's like to be silenced. Little falls community schools needs to get back to basics. English, math, social studies, art, music and so forth. With nothing hidden in the mix. Transparent learning and communication. Zero tolerance for bullying! Making our schools a healthy environment for learning and the number one thing EDUCATION! School is a child's first job, teaching them the responsibilities of waking up and getting ready to attend class, when kids learn and I emphasize learn, To hate going to school and develop a dislike for learning this hinders a child's growth and creates destruction. There are so many distractions, and so much pressure on children nowadays, including social clicks, growing bodies and trying to fit in. It's time we get back to the basics. Education first! I will share my tik tok account if you haven't watched a lot of that happen. And too all my non vocal followers and the rest of our community I ask for your support this year!
